Bunny Jr. Tapes, Byron Kim, Mama Yoshi, p34r.w34r, Perfume Area, Syro, Tiffany Sia, Matthew So, VeniceW, Alston Watson, Anicka Yi, Bettina Yung, Lu Zhang  
August 17 - September 21

This exhibition recasts the situationist imperative to “invent new decor” to fit our current phantasmagoric reality, one that needs to be supplemented with new hallucinatory connections to our material conditions. This exhibition is staged as a “case study” house that models the domestic interior, accoutrement, sensibilities, and activities for a different lyfe.

Better Homes & Gardens will feature clothing, furniture, fragrance, footwear, ceramics, music, video, and publications within an interior scene.
